Programming Updates

The district is excited to be able to move forward with programming options! Please note – if you choose to move forward with in-person programming and the mitigation strategies change after the session has begun, the District will NOT be able to refund program fees if the program is able to be offered virtually.

As we head into spring/summer, here are a few things that you can expect from the LindenHurst Park District staff in an effort to mitigate the spread of infectious diseases and keep participants and staff healthy:

- Reduced program participant capacities
- Different program drop off and pick up locations
- Limited spectators for programs
- Modification to the program to accommodate current guidelines
- Face mask will be required at all times while in the building and while participating in all youth activities indoors and out.

Here are the things our staff is doing to make sure you are safe at our programs:

- Increased sanitization of equipment and frequent cleaning of high touchpoints throughout the facility
- Required regular hand washing/sanitization for both staff and participants
- Individualized program supplies to avoid sharing and cross-contamination

Any participant exhibiting symptoms while participating in a program will be quarantined to a designated room until they can be picked up by a parent/guardian. The participant will be permitted to return to the program after all symptoms have subsided and an approved return-to-program note has been received by the district from your physician.

In the event of a confirmed case of COVID-19, participants will be notified immediately.

- ~ The contaminated program space will be closed for cleaning for 24 hours after notification of exposure
- ~ All program participants and staff will be required to self-quarantine for 14 days from the last date of exposure if they have had direct contact with the confirmed case

A participant can safely return to a program/facility after exposure or diagnosis of COVID-19 when:

- ~ They have been fever-free for 72 hours without medicine
- ~ AND other symptoms have improved
- ~ AND 10-14 days have passed since symptoms first appeared
- ~ AND they have a return to participation notice from their physician
