Subject: PMA Financial Presentation

This will be our first presentation from PMA. Howie Crouse will present a comprehensive overview including our forecasting for the next five years and some possible referendum scenarios to give us ideas as to what that would entail. You will see that due to state finances and cuts at that level, we will be in a significantly worse situation than we had predicted back in December. A powerpoint is attached for your viewing.

Enrollment and Staffing Assumptions

- Used Information Management Systems Enrollment
 Projections Method 1, reduced to use lower Kindergarten enrollment of 122 per year
- Enrollment is expected to decrease by 170 students over 5
 years because incoming kindergarten is smaller than outgoing
 8th Grade class
- Staffing is expected to be reduced proportionately
- Note: On the following enrollment charts, kindergarten student enrollment is divided by 2 to reflect half day kindergarten

Example: Impact of Higher Class Sizes

- Current staffing patterns show Central with 46.7 classroom teachers and West with 23.8
- In all scenarios, kindergarten and first grade remain under 25
- Scenario 1: If grades 2-8 are increased to 28 per class, Central would need 45 classroom teachers (-1.7) and West would still need 23.8
- Scenario 2: If grades 2-8 were increased to 30 per class, Central would need 42 classroom teachers (-4.7) and West would need 21 (-2.8) Total (-7.5)
- Additional reductions would occur in art, music, physical education

Impact of Grade Level Centers on Classroom Staffing

- In all scenarios, kindergarten and first grade remain under 25
- Scenario 3: If grades 2-8 are increased to 28 per class, classroom teachers would be reduced from 70.5 to 62
- Scenario 4: If grades 2-8 were increased to 30 per class, classroom teachers would be reduced to from 70.5 to 59
- Additional reductions would occur in art, music, physical education

Projected Salary and Benefit Savings

- We use average savings of \$60,000 per teacher in FY12
- Scenario 1 reduces expenditures by more than \$100,000 per year, beginning in FY12
- Scenario 2 reduces expenditures by more than \$325,000 per year, beginning in FY12
- Scenario 3 reduces expenditures by more than \$400,000 per year, beginning in FY12
- Scenario 4 reduces expenditures by approximately \$650,000 per year, beginning in FY12
