INDEPENDENT AUDITOR'S REPORT

Board of Education
Millburn Community Consolidated School District No. 24
Wadsworth, Illinois

We have audited the accompanying financial statements of the governmental activities and each major fund of

MILLBURN COMMUNITY CONSOLIDATED SCHOOL DISTRICT NO. 24

as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of Millburn Community Consolidated School District No. 24 as of June 30, 2008, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, historical pension information, and budgetary comparison information on pages 2-10 and pages 37-47 are not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2008

The management of Millburn Community Consolidated School District No. 24 (the District) presents this narrative overview and analysis of the District's financial activities for the fiscal year ended June 30, 2008. The information presented here should be considered in conjunction with the financial statements presented elsewhere in this report.

This discussion and analysis is designed to:

1. Assist the reader in focusing on significant financial issues,
2. Provide an overview of the District's financial activity,
3. Identify changes in the District's financial position (its ability to cope with the next and subsequent year challenges),
4. Identify any material deviations from the financial plan (the approved budgets), and
5. Identify individual fund issues or concerns.

Since Management's Discussion and Analysis (M D & A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the District's financial statements beginning on page 11.

Financial Highlights

- Millburn spent approximately \$1,050,000 on replacement equipment and building improvements.
- District operations for the year indicate expenses exceeding revenues by \$2,478,000.
- Payments during the year reduced Millburn's debt by \$946,000.
- Millburn incurred \$246,000 in new debt in the 2007-08 fiscal year to lease/purchase equipment.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Millburn's basic financial statements. The District's basic financial statements consist of three components:

1. District-wide financial statements,
2. Fund financial statements and,
3. Notes to financial statements.

In addition, this report also includes other supplementary information which is presented after the notes to financial statements.

District-Wide Financial Statements

The district-wide financial statements are designed to provide readers with a broad overview of Millburn's finances presented in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the District's assets and liabilities, with the difference between the asset total and the liabilities total reported as the District's net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of Millburn is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years (e.g., uncollected property taxes).

The district-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). Governmental activities include instruction, support services, operation and maintenance of plant, student transportation, food services, and certain other activities and expenses such as non-programmed charges, interest and fees, and depreciation.

The district-wide financial statements can be found on pages 11 and 12 of this report.

Fund Financial Statements

Millburn's fund financial statements provide additional detail about the District's funds, focusing on its "major" funds -- not the District as a whole. For purposes of this report, the District considers all of its governmental funds as major funds. Funds are accounting devices used to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law, by bond covenants, or by contractual agreements. Still other funds are established to control and manage money for particular purposes (such as repaying its long-term debt) or to show that it is properly using certain revenues for their intended purposes.

Millburn has two categories of funds:

- **Governmental Funds** - Most of the District's basic services are included in governmental funds. These funds generally focus on (1) how cash (and other financial assets that can readily be converted to cash) flows in and out of the District and (2) the balances which are left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future for District purposes. Because the information contained in the fund financial statements does not encompass the additional long-term focus of the district-wide statements, a reconciliation statement follows the governmental funds financial statements to explain the relationship (or differences) between them.

The basic fund financial statements can be found at pages 13-18 of this report.

- **Fiduciary Funds** - The Millburn School District is the trustee, or fiduciary, for assets that belong to others, such as the student activity funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. The assets are excluded from the district-wide financial statements because it cannot use these assets to finance operations.

The basic fiduciary fund financial statements can be found on pages 18 and 46 of this report.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and also the fund financial statements. The notes to financial statements can be found on pages 19-33 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain Required Supplementary Information. A budgetary comparison statement has been provided for each fund as required supplementary information. This information can be found on pages 37-46 of this report.

Financial Analysis of the District as a Whole

Net Assets - Millburn's net assets at June 30, 2008 were \$2.5 million less than they were the year before, decreasing to a deficit of \$1.6 million. The following table presents a summary of the District's net assets at year-end:

Table 1

The following are significant current year transactions that have had an impact on the Statement of Net Assets.

- The District spent \$1,050,000 to replace equipment and for building improvements.
- Financing for the capital asset purchases came primarily from the funds available in the District's operating fund.
- Long-term debt paid during the year included the retirement of \$689,196 in bonds and reduction of \$256,672 in lease/purchase obligations.
- Depreciation expense of \$1,205,335 was charged against income.

Changes in Net Assets - The District's total revenues for the fiscal year ended June 30, 2008 were \$15.2 million. The total cost of all programs and services was \$17.7 million, exceeding revenues by \$2.5 million as illustrated in the following table. The District's growing enrollment is largely responsible for the deficit since expenses related to growth tend to increase before the additional revenues are recognized as income. Some additional revenue is expected as newly-developed properties are added to the tax rolls.

Net Cost of Governmental Activities - The following schedule presents the cost of five major and all other District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, and transportation and all other costs including depreciation and debt service, and excluding capital outlay. This schedule also shows (expressed in thousands of dollars) each activity's net cost, i.e., total cost less fees and intergovernmental aid allocable to each activity. The net is equivalent to the financial burden borne by the District's taxpayers to support each of these functions.

Summary and Highlights

- The cost of all governmental activities for the year was \$17.7 million.
- About \$673,000 of the cost was paid by users of the District's programs.
- Federal and state subsidies to specific programs totaled \$2.3 million which includes \$1.0 million in state on-behalf payments.
- Most of the costs (\$9.1 million) however, were paid by the District's taxpayers.
- Replacement taxes, investment earnings, and state and federal aid-formula grants totaled \$3.1 million.

Financial Analysis of the District's Funds

Millburn's financial performance is reflected in the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds appearing on pages 15 and 16 of this report. Total revenues were \$15.2 million compared to \$13.7 in the prior year -- an increase of \$1.5 million. Total expenditures were \$17.7 million compared to \$15.9 million a year ago. Other financing sources provided \$.2 million. Current year expenditures exceeded revenues and other financing sources by \$2.3 million.

Educational Account (Pages 37-40) - Property taxes produced \$6.1 million in revenue for the Education Account during fiscal 2008, or 54% of all of the fund's revenue. State sources accounted for 39% of revenue at \$4.5 million, including \$1.0 million in on-behalf pension payments. Without the on-behalf pension payments, state revenues were \$3.5 million, accounting for 31% of total revenue. Federal sources provided \$76,000, or about .7% of total Education Account revenue. Fees, earnings on investments, and other local sources of revenue produced \$723,000, or 6.3% of total revenue. Thus, property taxes and other local revenues combined accounted for \$6.8 million, or more than 60% of Education Account revenues.

Total Education Account expenditures were \$12.7 million compared to \$12.0 million a year ago -- an increase of 6%. Of the \$12.7 million, \$9.8 million, or 77%, was used for direct instruction and teachers' pensions; \$3.8 million paid for instructional support services and administration; and \$357,000 was used for tuition paid to other school districts and interest.

After taking into account the revenues of \$11.4 million, other financing sources of \$.3 million, and the expenditures of \$12.7 million, the Education Fund posted an excess of expenditures over revenues of \$1.0 million -- increasing its year-end fund balance deficit to \$3,731,000. See pages 36-40.

Operations and Maintenance Account (Page 41) - As with the Education Account, the Operations and Maintenance Account's largest source of revenue comes from property taxes which account for \$977,000 out of total fund revenues of \$1,011,000, or 97% of total fund revenue. Other local revenue sources account for the other 3.0%, or \$34,000.

Total expenditures of \$1,327,000 were \$76,000 more than last year's \$1,251,000 due primarily to a \$55,000 increase in purchased services. Thus, total expenditures exceeded revenues by \$316,000. In the prior year, expenditures exceeded revenues by \$234,000.

Transportation Fund (Page 42) - Revenues for transportation were less than expenditures by \$304,000. While revenues from property taxes increased by \$1,000 to \$161,000, this increase was more than offset by a \$225,000 increase in direct expenses for transportation services.

Total expenditures of \$1,113,000 for 2008 is \$134,000 more than the 2007 total. A review of the totals reveals a general increase in operating expenses connected with operating additional buses.

IMRF Fund (Page 43) - IMRF Fund revenues for 2008 were \$345,500, which included property taxes because Millburn resumed its tax levy one year ago. Expenditures of \$464,000 were \$41,000 more than the 2007 cost of \$423,000. The increased costs reflect the District's salary cost increases during the year.

Debt Service - Bond and Interest Fund (Page 44) - Debt service funds are intended to be self-liquidating. This means that over time, revenues received from taxes should equal required expenditures. Except for timing differences where taxes are collected prior to required disbursements, the theory says there should be no accumulation of fund balances. However, accumulations do often occur when tax collections are higher than expected or when interest earnings are retained in the fund. Because of the revenue timing differences, however, analysis of annual operating results is generally not useful for the reader.

For 2008, the District's Bond and Interest Fund revenues totaled \$1,491,000, including \$34,000 in interest earnings. Expenditures totaled \$1,429,000. The fund transferred \$32,745 of its interest earnings to the Education Fund. The fund balance increased by \$29,578 due to the timing of revenues and bond payments.

Capital Projects Fund (Page 45) - The District's Capital Projects Fund, the Site and Construction Fund, carried forward \$1.7 million from the previous year which represents the unexpended proceeds of bonds issued for construction purposes and contributions. During the year it received interest, contributions, and other revenue of \$96,000. It spent \$619,000 for capital improvements and transferred interest earnings of \$52,000 to the Education Account. The fund is expected to exhaust itself as various building projects are undertaken.

Working Cash Fund (Page 46) - The Working Cash Fund received \$5,514 in taxes and earned \$45 in interest on investments. All income was transferred to the Education Account.

General Fund Budgetary Highlights (Page 36, 37 and 41) - The District originally budgeted general fund expenditures to total \$13,133,130. The budget was not amended. Actual General Fund expenditures totaled \$14,038,577, including \$969,373 in unbudgeted pension payments. Net results of operations were originally expected to result in a general fund decrease in fund balance of \$1,656,584. Actual results for the year produced a deficit of \$1,279,838.

Capital Asset and Debt Administration

Capital Assets - At June 30, 2008, Millburn's net capital assets totaled \$31.6 million in a broad range of capital assets. These assets, which are listed in Note 3C of the notes to financial statements according to five categories (land, buildings, improvements other than buildings, equipment, and vehicles) include the District's land and buildings, athletic facilities, lab facilities, auditorium, computer and audio-visual equipment, furniture and other classroom, administrative equipment and buses. Total depreciation expense of \$1,205,335 for the year was charged to various functions on the Statement of Activities. The \$1,205,335 was allocated to:

Regular Programs	\$ 37,526
Interscholastic Programs	8,254
Instructional Staff	264,154
General Administration	57,608
Operations and Maintenance	737,219
Transportation	70,063
Food Services	<u>30,511</u>
	\$ <u>1,205,335</u>

During the year, the District invested \$1,050,208 in additions to its capital assets. The amounts invested in additions to capital assets were less than charges for depreciation during the year by \$155,127. The following schedule presents capital asset balances net of depreciation at June 30, 2008:

	<u>2008</u>
Land	\$ 826,414
Buildings	28,458,613
Improvements Other Than Buildings	434,514
Equipment	1,759,005
Vehicles	<u>136,599</u>
Totals	\$ <u>31,615,145</u>

Long-term Debt - During the 2008 fiscal year, the District:

1. Retired bonds in the amount of \$689,000;
2. Paid \$257,000 toward its lease/purchase obligations; and
3. Incurred interest costs and fees of \$1,574,000.

See note 3D of the Notes to Financial Statements for details.

At June 30, 2008, Millburn's long-term debt obligations were:

General Obligation Bonds	\$ 23,993,812
Lease/Purchase Contracts and Loans	<u>437,334</u>
Total Long-term Debt Obligations at June 30, 2008	\$ <u>24,431,146</u>

In addition, the District was liable for accrued and accreted interest on its long-term debt:

Accrued and Accreted Interest on Bonds	\$ 5,480,540
Accrued Interest on Lease/Purchase Agreements	<u>57,144</u>
Total Accrued and Accreted Interest at June 30, 2008	\$ <u>5,537,684</u>

Summary and Highlights

- Property taxes continue to be the District's largest single source of revenues at \$9.1 million with locally generated fees and charges and interest earnings generating \$.8 million. \$5.3 million was provided by state and federal aid. Thus, nearly 65% of revenue came from local sources.

- Total expenditures for all funds were \$17.7 million, \$1.7 million more than the previous year. This year, expenditures included \$1.6 million spent on debt service interest and fee payments.
- Total additions to capital assets of \$1,050,208 were acquired during the year.
- Payments on long-term debt totaled \$946,000.

Factors Bearing on the District's Future

The Millburn School District enrollment has increased dramatically over the last several years. Currently, the District's enrollment is approximately 1,672. The expectation is that enrollments will continue to increase as more land is developed for housing. The rate of increase can't be accurately predicted as it depends on economic factors and local development.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, investors, and creditors with a general overview of Millburn's finances and to demonstrate its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Superintendent at 18550 Millburn Rd., Wadsworth, Illinois 60083.

BALANCE SHEET TO THE STATEMENT OF NET ASSETS

JUNE 30, 2008

Total Fund Balances (Deficit) - Governmental Funds		\$ (3,106,273)
Amounts reported for governmental activities in the Statement of Net Assets are different because:		
The cost of capital assets (land, buildings, furniture, and equipment) purchased or constructed is reported as an expenditure in governmental funds. The Statement of Net Assets includes those capital assets among the assets of the School District as a whole.		
Cost of Capital Assets	\$ 39,328,418	
Depreciation Expense to Date	<u>(7,713,273)</u>	31,615,145
Long-term liabilities applicable to the School District's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities -- both current and long-term -- are reported in the Statement of Net Assets.		
Balance at June 30, 2008 is:		
Bonds Payable	\$ 23,993,812	
Lease/Purchase Contracts	437,334	
Accreted and Accrued Interest Payable	<u>5,498,357</u>	(29,929,503)
Deferred charges consisting of unamortized bond issuance expenses are not reported on the fund financial statements since such items have been charged there as expenses when paid rather than amortized ratably over the period of the indebtedness.		263,808
Deferred credits consisting of premiums received on the sale of bonds have been recognized as other financing sources on the fund financial statements when received rather than amortized over the period of the indebtedness.		<u>(417,071)</u>

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the District

Millburn Community Consolidated School District No. 24 is a K-8 public school system located on the eastern edge of North Central Lake County, Illinois. The District serves portions of the Villages of Lindenhurst, Old Mill Creek, Wadsworth, and unincorporated areas in the vicinity. The District operates from two locations in Old Mill Creek. Enrollment for 2008 was more than 1,600 students.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to local governmental units of this type. The following is a summary of Millburn's more significant accounting policies:

A. Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is a legally separate organization for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and

1. It is able to impose its will on that organization or
2. There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District.

The District also may be financially accountable if an organization is fiscally dependent on the District regardless of whether the organization has:

1. A separately elected governing board,
2. A governing board appointed by a higher level of government, or
3. A jointly appointed board.

There are no component units, as defined by GASB, which are included in Millburn's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as municipalities, libraries and other entities, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them.

Furthermore, the District is not included as a component unit in the financial statements of any other governmental reporting entity as defined by GASB pronouncements.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation

District-wide and Fund Financial Statements

The district-wide financial statements identified as the Statement of Net Assets and the Statement of Activities report information on all of Millburn's non-fiduciary activities. The effect of any interfund activity has been eliminated from them. The governmental activities column reports activities that are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include:

1. Charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and
2. Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported as general revenues instead.

Fund Financial Statements

Millburn's accounts in the governmental fund financial statements are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, reserves, fund balance, revenues, and expenditures. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Separate financial statements are provided for all governmental funds and fiduciary funds even though the fiduciary funds are excluded from the district-wide financial statements.

C. Measurement Focus and Basis of Accounting

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental funds are used to account for the District's general government activities. Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual. They are susceptible to accrual when they are both "measurable and available." "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Management considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt which is recognized when due, and certain compensated absences, claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Also, in accordance with GASB No. 24, on-behalf payments made by the State to the Teachers' Retirement System have been recognized in the financial statements.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus and Basis of Accounting (continued)

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant and accordingly, when such funds are received they are recorded as deferred revenues until earned.

Governmental funds include the following major funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund consists of the following:

Educational Account - This account is used for most of the instructional and administrative aspects of the District's operations. The revenue consists primarily of property taxes, local fees, and state and federal aid.

Operations and Maintenance Account - This account is used for expenditures made for operations of plant and maintenance and repair of District property. Revenue is derived primarily from property taxes and rents.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than those accounted for in the Debt Service Fund, Capital Projects Funds, or Fiduciary Funds) that are legally restricted to expenditures for specified purposes.

Each of Millburn's Special Revenue Funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's Special Revenue Funds follows:

Transportation Fund - This fund accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - This fund accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare for certified employees, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

Working Cash Fund - This fund accounts for financial resources held by the District to be used as temporary interfund loans for working capital requirements to the General Fund and the Transportation Fund. Money loaned by the Working Cash Fund to other funds must be repaid within one year. As allowed by the School Code of Illinois, this fund may be permanently abolished and become a part of the Educational Account within the General Fund or it may be partially abated to the General Fund, Special Revenue Funds, or Debt Service Funds.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. A brief description of Millburn's Debt Service Fund is as follows:

Bond and Interest Fund - This fund accounts for the periodic principal and interest payments on Millburn's bond issues. Local property taxes levied specifically for debt service is the fund's primary revenue source.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus and Basis of Accounting (continued)

Capital Projects Fund - The Capital Projects Fund (known as the Site and Construction Fund) is used to account for the financial resources to be used for the acquisition and construction and/or additions to major capital facilities. The principal source of financing is the District's issuance of bonds for this purpose. Impact fees collected from builders and developers are also deposited in this fund.

Fiduciary Fund Types (Trust and Agency Funds) - Fiduciary Funds (Trust and Agency Funds) are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

Agency Funds - The Agency Funds include Student Activity Funds, Convenience Accounts, and Other Agency Funds. These funds are custodial in nature and do not involve the measurement of the results of operations. Although the Board of Education has the ultimate responsibility for Activity Funds, they are not local education agency funds. Student Activity Funds account for assets held by the District which are owned, operated and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational or cultural purposes. Convenience Accounts account for assets that are normally maintained by a local education agency as a convenience for its faculty, staff, and others.

When restricted and unrestricted resources are available for use, it is Millburn's policy to use restricted resources first, and then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Assets or Equity

Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, certificates of deposit, repurchase agreements, and The Illinois Fund). Investments are stated at fair value. Changes in the fair value of investments are recorded as investment income.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." These amounts are eliminated in the governmental activities column in the statement of net assets.

Property Tax Revenues

The District must file its tax levy with the Lake County Clerk by the last Tuesday in December of each year. The levy filed in December becomes a lien on all taxable real property located in the District as of the preceding January 1. Thus, the owner of real property on January 1 in any year is liable for taxes of that year. Millburn's 2007 tax levy was approved during the November 26, 2007 board meeting.

The District has a statutory tax rate limit in the various operating funds subject to change only upon the approval of its voters. Further, Millburn is subject to the Property Tax Extension Limitation Act which, in general, limits the increase in the amount of taxes to be extended each year to the lesser of 5% or the percentage increase in the Consumer Price Index for the preceding year. Certain bond issue levies and referendum approved increases are exempt from this limitation.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Property Tax Revenues (continued)

Property taxes are collected by the Lake County Treasurer who remits to Millburn its share of the collections. Taxes levied in one year are billed in May of the following year, payable in two installments. The first installment due date is usually during the first week in June and the second installment is usually due during the first week in September. Property taxes are normally received by the District within 90 days of each installment due date.

The 2007 property tax levy is recorded as a receivable net of estimated uncollectible amounts. The balance receivable at year-end is the amount of the taxes levied net of the estimated uncollectible amounts minus collections received to that date. Millburn defers recognition of revenue on the 2007 tax levy until the 2007-08 fiscal year as that is the year the 2007 levy was intended to finance operations. This deferral includes collections of 2007 taxes received prior to the end of the 2007-08 fiscal year.

Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement/Social Security Fund as required by Illinois statute, with the balance allocated to the remaining funds at the discretion of the District. If the Municipal Retirement/Social Security Fund does not levy a property tax for a particular year, then no replacement taxes are allocated to it for that year.

Prepaid Items

Certain payments to vendors for goods and services that reflect costs applicable to future accounting periods are recorded as prepaid items in both the district-wide and fund financial statements.

Capital Assets

Capital assets, which include land, land improvements, building, building improvements, vehicles, machinery, equipment, and construction in progress are reported in the district-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$500 and an estimated useful life of five years or more. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives as established by the Illinois State Board of Education. The District chose to use the same useful lives as the State Board of Education.

<u>Assets</u>	<u>Years</u>
Buildings	50
Improvements (other than buildings)	20
Equipment	5-10
Vehicles	5

The District does not depreciate land and construction in progress.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Compensated Absences

Employees who work a twelve-month year are entitled to be compensated for vacation time. Vacations are usually taken within the fiscal year. The entire compensated absences liability is reported on the district-wide financial statements.

For the governmental funds, the current portion of the compensated absences is the amount that is normally expected to be paid using expendable available resources. These amounts are recorded in the fund from which the employees who have accumulated vacation leave are paid.

Due to the nature of the policies on sick leave, and the fact that any liability is contingent upon future events and cannot be reasonably estimated, no liability is provided in the financial statements for accumulated unpaid sick leave.

Long-term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. However, bond premiums, discounts and bond issuance costs for bonds issued prior to July 1, 2003 when the District was using the cash basis of accounting were charged to expense at the time of issuance and are not amortized or netted against liabilities.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Restricted Net Assets

For the district-wide financial statements, net assets are reported as restricted when constraints placed on net asset use are either:

1. Externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments or
2. Imposed by law through constitutional provisions or enabling legislation.

In the fund financial statements, reservations of fund balance represent amounts that are not available for other appropriations, or are legally segregated for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Comparative Data

Comparative totals for the prior year have not been presented in selected sections of the accompanying financial statements.

Eliminations and Reclassifications

In the process of aggregating data for the district-wide financial statements, some amounts reported as interfund activity and balances may have been eliminated or reclassified.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of Expenditures Over Budget

For the year ended June 30, 2008, expenditures exceeded budget in the following funds:

<u>Fund</u>	<u>Budget</u>	<u>Actual</u>	<u>Excess</u>
Education Account	\$ 11,846,145	\$ 12,711,670	\$ 865,525*
Operations and Maintenance Account	1,286,985	1,326,907	39,922
Transportation Fund	979,699	1,112,758	133,059
IMRF Fund	432,000	464,067	32,067
Site and Construction Fund	550,000	618,708	68,708

This over-expenditure was funded by the available fund balance.

*The Education Account over-expenditure results from the inclusion in expenditures of \$969,373 in unbudgeted State on-behalf payments to TRS. This expenditure is covered by an offsetting revenue amount.

NOTE 3 - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. Deposits and Investments

Millburn is allowed to invest in securities as authorized by Chapter 30, Sections 235/1 through 235/7, and Chapter 105, Section 518-7 of the *Illinois Compiled Statutes*.

Deposits

At June 30, 2008, the carrying amount of the District's deposits was \$41,695. The bank balance was \$70,522. The deposits are categorized in accordance with risk factors created by governmental reporting standards. They are:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Category #1	\$ ---	\$ ---
Category #2	41,695	41,695
Category #3	---	---
	<u>\$ 41,695</u>	<u>\$ 41,695</u>

Category #1 includes deposits covered by depositing insurance or collateral held by the District in the District's name.

Category #2 includes deposits covered by collateral held by the financial institution's trust department in the District's name.

Category #3 includes deposits which are uncollateralized or for which the collateral is held by the financial institution's trust department, but not in the District's name.

In addition to the District's deposits described above, the activity funds it administers had cash balances at June 30, 2008 with a carrying value of \$28,822 and a bank balance of \$32,253. All activity fund balances were covered by FDIC insurance.

D. Long-term Debt

Millburn's long-term debt consisted of bonded debt and lease/purchase contracts during the 2008 fiscal year. A description of that debt follows:

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 3 - DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (continued)

D. Long-term Debt (continued)

1. The District issued General Obligation School Bonds on May 1, 1999, for \$9,326,744. The issue was to finance the costs of school building additions and to pay costs of issuing the bonds. The issue provided for the serial retirement of principal on December 1 of each year beginning December 1, 2006 through December 1, 2016, with interest rates varying from 4.40% to 5.30%, payable on July 1 and December 1 beginning with July 1, 1999.
2. On May 1, 2004, Millburn School issued \$15,984,547 in building bonds. Included in this issue were \$6,075,000 in current interest bonds which mature on January 1, 2007 through 2010 and 2019 and 2020. These current interest bonds bear interest ranging from 3.25% to 5% per annum, payable semi-annually on July 1 and January 1. The balance of the bonds issued are capital appreciation bonds totaling \$9,909,546.75 which begin maturing on January 1, 2017 and annually thereafter until fully paid, except there is no maturity due on January 1, 2020 when the final payment is made on the current interest bonds. The capital appreciation bonds accrete at interest rates ranging from 5.11% to 6.9%, depending on maturity.

At June 30, 2008, the annual debt service requirements to service bonded debt were:

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2009	\$ 758,415	\$ 812,830	\$ 1,571,245

D. Long-term Debt (continued)

On May 26, 2004, the District leased eight copiers and refinanced the balance of a previous lease for \$115,961 payable over five years in monthly installments of \$2,215 cash, including interest at 5.5%.

On July 27, 2005, Millburn leased seven copiers and peripheral equipment for \$119,848 from PMA Leasing, Inc. for use at Millburn West. The lease calls for 60 monthly payments of \$2,317, including interest at 6% beginning August 27, 2005 and ending July 27, 2010.

On May 15, 2005, the District leased approximately 116 Apple computers and peripheral equipment from Apple Financial Services. The lease calls for three annual installment payments of \$61,726.02 including interest at 7.845% beginning September 10, 2005.

On February 16, 2006, the District received a loan from the Illinois State Board of Education for \$234,550 to be used to purchase computers and related equipment under ISBE's School Technology Revolving Loan Program. The loan bears interest at 2% and is being repaid in six semi-annual installments of \$40,301, including interest. The first payment was due June 1, 2006 and the last payment is due December 1, 2008.

On April 18, 2008, the District leased approximately 117 Apple computers with payments of \$68,192.66 at an interest rate of 4.7641 beginning on October 19, 2008.

For the year ended June 30, 2008, changes in long-term debt are summarized as follows:

NOTE 4 - OTHER INFORMATION

A. Risk Management

Millburn is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District is a member of a public entity risk pool, described below, that provides property and liability coverage and purchases commercial insurance for other risks. Claims settlements have not exceeded coverages for any of the three preceding years and there has been no significant reduction in coverage since last year.

Health Care Benefits

Millburn provides health care benefits to its employees through Cooperative 90's, a cooperative organization which includes a number of other governmental units among its members. The organization employs a third-party administrator which provides claims payment and management services. The District's liability for individual claims is limited and cumulative losses are covered by stop-loss insurance. Millburn can be liable for additional contributions to Cooperative 90's should funds be insufficient to cover the cooperative's obligations. However, none have been required in previous years.

Public Entity Risk Pool

The District is a member of the Collective Liability Insurance Cooperative (CLIC) which insures all of Millburn's property, general liability, automobile, employee dishonesty, pollution, and workers' compensation claims up to specified limits. CLIC is a separate entity, with more than 140 Illinois school district members as of June 30, 2007, which sets rates and purchases commercial excess and stop-loss coverage. The District pays annual premiums to CLIC for coverage. Supplementary payments may also be required upon determination by CLIC's Board of Directors that the annual premiums are insufficient to fund the operations of the pool. No such supplemental payments have been required by CLIC in its 20-plus years of existence.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 4 - OTHER INFORMATION (continued)

B. Joint Agreements

The District participates with other Illinois school districts in certain cooperative educational organizations, known as joint agreements. These joint agreements are owned by the participants and are operated for the specific purposes stated in the joint agreement document, e.g., Special Education, Vocational Education, Insurance Pool, etc. This District has, in accordance with the generally accepted practice of other Illinois school districts, charged the cost of its investment to current expenditures in the year paid. The investment is not capitalized and it is unclear whether the District would receive any return on its investment should it choose to withdraw from any of the joint agreements. Complete separate financial statements for any organization in which the District participates may be obtained directly from the organization by contacting the administrative District.

NOTE 5 - RETIREMENT FUND COMMITMENTS

The District participates in two retirement systems; the Teachers Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF).

A. Teachers' Retirement System of the State of Illinois

Millburn participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago.

The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The State of Illinois maintains primary responsibility for the funding of the plan, but contributions from participating employers and members are also required. The TRS Board of Trustees is responsible for the system's administration.

TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher certification is required. The active member contribution rate for the year ended June 30, 2007 was 9.76% of creditable earnings. These contributions, which may be paid on behalf of employees by the employer, are submitted to TRS by the employer.

In addition, virtually all employers and members pay a contribution to the Teachers' Health Insurance Security (THIS) Fund, a separate fund in the State Treasury that is not a part of this retirement plan. The employer THIS Fund contribution was .63% during the year ended June 30, 2007, and the member THIS Fund health insurance contribution was .84%.

The State of Illinois makes contributions directly to TRS on behalf of the District's TRS-covered employees.

- On-Behalf Contributions - The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2008, State of Illinois contributions were based on 13.11% of creditable earnings, and the District recognized revenue and expenditures of \$969,373 in pension contributions that the State of Illinois paid directly to TRS. For the years ended June 30, 2007 and June 30, 2006, the State of Illinois contribution rates as percentages of creditable earnings were 9.78% (\$698,836) and 7.06% (\$449,550), respectively.

The District makes three other types of employer contributions directly to TRS.

- 2.2 Formula Contributions - Employers contribute .58% of creditable earnings for the 2.2 formula change. Contributions for the year ending June 30, 2008 were \$42,886. Contributions for the years ended June 30, 2007 and June 30, 2006 were \$41,467 and \$36,932, respectively.

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 5 - RETIREMENT FUND COMMITMENTS (continued)

A. Teachers' Retirement System of the State of Illinois (continued)

- Federal and Trust Fund Contributions - When TRS members are paid from federal and trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that was first effective in the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and trust funds will be the same as the state contribution rate to TRS.

For the year ended June 30, 2008, the employer pension contribution was 13.11% of salaries paid from federal and trust funds. For the years ended June 30, 2007 and 2006, the employer contribution was 9.78% and 7.06% of salaries paid from federal and trust funds, respectively. For the three years ended June 30, 2008, no salaries were paid from federal and special trust funds that required employer contributions.

- Early Retirement Option (ERO) - The District is also required to make one-time employer contributions to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the age and salary of the member and under which ERO program the member retires.

Under Public Act 94-0004, a "Pipeline ERO" program is provided for members to retire under the same terms as the ERO program that expired June 30, 2005, provided they meet certain conditions and retire on or before July 1, 2007. If members do not meet these conditions, they can retire under the "Modified ERO" program which requires higher member and employer contributions to TRS. Also, under Modified ERO, Public Act 94-0004 eliminates the waiver of member and employer ERO contributions that had been in effect for members with 34 years of service (unless the member qualifies for the Pipeline ERO).

Under the ERO program that expired on June 30, 2005 and the Pipeline ERO, the maximum employer contribution is 100% of the member's highest salary used in the final average salary calculation.

Under the Modified ERO, the maximum employer contribution is 117.5%.

Both the 100% and 117.5% maximums apply when the member is age 55 at retirement.

For the year ended June 30, 2008, the District paid nothing to TRS for employer contributions under the Pipeline ERO and Modified ERO programs. For the years ended June 30, 2006 and June 30, 2005, the District paid nothing in employer ERO contributions.

- Salary Increases Over 6% and Excess Sick Leave - Public Act 94-0004 added two new employer contributions to TRS.

If an employer grants salary increases over 6% and those salaries are used to calculate a retiree's final average salary, the employer makes a contribution to TRS. The contribution will cover the difference in actuarial cost of the benefit based on actual salary increases and the benefit based on salary increases of up to 6%.

For the year ended June 30, 2008, the District paid nothing to TRS for employer contributions due on salary increases in excess of 6%. For the year ended June 30, 2007 and June 30, 2006, the District paid nothing in employer contributions due on salary increases in excess of 6%.

If an employer grants sick leave days in excess of the normal annual allotment and those days are used as TRS service credit, the employer makes a contribution to TRS. The contribution is based on the number of excess sick leave days used as service credit, the highest salary used to calculate final average salary, and the TRS total normal cost rate (17.62% of salary during the year ended June 30, 2008).

NOTES TO FINANCIAL STATEMENTS (continued)

NOTE 5 - RETIREMENT FUND COMMITMENTS (continued)

A. Teachers' Retirement System of the State of Illinois (continued)

For the year ended June 30, 2008, the District paid nothing to TRS for sick leave days granted in the excess of the normal annual allotment. For the years ended June 30, 2007 and June 30, 2006, the District paid nothing in employer contributions granted for sick leave days.

TRS financial information, an explanation of TRS' benefits, and descriptions of member, employer, and state funding requirements can be found in the TRS *Comprehensive Annual Financial Report* for the year ended June 30, 2007. The report for the year ended June 30, 2008 is expected to be available in late 2008.

The reports may be obtained by writing to the Teachers' Retirement System of the State of Illinois, P.O. Box 19253, 2815 West Washington Street, Springfield, IL 62794-9253. The most current report is available on the TRS web-site at trs.illinois.gov.

B. Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), is an agent-multiple-employer public employee retirement system which provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly.

IMRF issues a financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

As set by statute, the District's regular plan members are required to contribute 4.5% of their annual covered salary. The statutes requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar year 2007 was 10.42% of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

For 2007, the District's annual pension cost of \$178,958 for the regular plan was equal to the District's required and actual contributions.

NOTE 5 - RETIREMENT FUND COMMITMENTS (continued)

B. Illinois Municipal Retirement Fund (continued)

The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2005 included: (a) 7.5% investment rate of return (net of administrative and direct investment expenses); (b) projected salary increases of 4.00% a year, attributable to inflation; (c) additional projected salary increases ranging from 0.4% to 10.0% per year depending on age and service, attributable to seniority/merit; and (d) post-retirement benefit increases of 3% annually. The actuarial value of the District's plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 15% corridor between the actuarial and market value of assets. The District's regular plan's overfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2007 was 5 years.

As of December 31, 2007, the most recent actuarial valuation date, the regular plan was 75.49% funded. The actuarial accrued liability for benefits was \$1,980,718 and the actuarial value of assets was \$1,495,154, resulting in an underfunded actuarial accrued liability (UAAL) of \$485,564. The covered payroll (annual payroll of active employees covered by the plan) was \$1,717,451 and since the plan is overfunded, there is no ratio of the UAAL to the covered payroll.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

C. Social Security

Employees not qualifying for coverage under the Illinois Teachers' Retirement System or the Illinois Municipal Retirement Fund are considered "non-participating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security.

NOTE 6 - TAX ANTICIPATION WARRANTS PAYABLE

The District issued tax anticipation warrants in 2007-08 to insure its expenses were paid in a timely manner. The District has warrants payable of \$2,900,000 as of June 30, 2008.
