Designing Coherent Instruction

Professional Development

October 2012

Reflection on Anchor Components

- Anchor Component Defined
  - holds something firmly
  - if the Anchor Component is in place other things fall in line
- Read descriptors for Anchor Components
  - Domain 1, Domain 2, Domain 3

Framework for Teaching Placemat

- Domain - 4

- Components - 22   Anchor Components - 5

- Elements - 76

Today's Activity

- Read the rubric for each component

- Highlight in one color the statements that are "in place" for you and highlight in another color the statements that are "not in place" for you

- Reflect on where the majority of your highlighting falls. What rating would you give yourself for the component?
