

OFFICE OF THE SUPERINTENDENT

Millburn Public Schools

INFORMATION ITEM

February 1, 2010

To: Board of Education Members

From: Ellen E. Mauer, PhD

Subject: Chevron Presentation

You should have received a packet from Chevron that was mailed to your homes to give you a head start in reading the material. Sharon Uslan will be here to give her presentation. An engineer will also be here for questions.

There are many pros and cons to the Chevron proposal. I would like us to ask all of our questions tonight and take some time to think about our financial situation as well as our buildings and grounds situation. We can hear the presentation, ask questions, then have further discussion at our next meeting.
