Millburn West School

Administrative Report

June 21st, 2010

To: Board of Education Members

From: Jake Jorgenson

The conclusion to the school year was successful and fun. We had a great trip to Springfield with the 8th grade class. All kids behaved very well and appropriate. Graduation was another event that celebrated the 8th grade class. Other grade levels were busy with end of the year picnics, field days and field trips. The students truly enjoy the end of the year activities. Many parents were able to attend as helpers and chaperones for these events too.

Mr. Lind and I led a workshop on Response to Intervention with staff members from the RtI committee. It was a two day workshop that focused on problem solving and providing interventions to students that need them. The staff members included specialists, psychologist, and grade level teachers. I appreciate the help that the staff members were able to offer.
