## Flu and H1N1 Update

Hello, Parents!

We are posting a joint letter to our website from Dr. Damon Arnold, Director of the Illinois Department of Public Health and Chris Koch, Illinois State Superintendent, urging parents to have their children vaccinated for both the H1N1 virus and the seasonal flu virus. Both pose possible significant health risks to our students, and vaccines have proven to be a safe and effective way of mitigating these risks.

The letter is posted to our "In the News" section. Please take a moment to read it and consider how vaccination might affect your family. There are some other websites with additional information if you are interested at [www.ready.illinois.gov](http://www.ready.illinois.gov) or [www.flu.gov](http://www.flu.gov).

Your partner in education,

Dr. Ellen E. Mauer  
Superintendent
