## District Growth Index NWEA

NWEA Average Growth Index

*This data reflects the average growth of all students in 2-8 grades.

- 0 equals the expected growth between the fall and spring on NWEA. Any positive number means that there was greater than expected growth on this indicator
- NWEA changed the test to greater reflect Common Core Standards in 2012 and 2013. This may be an indication of the smaller growth in 2012 and negative growth in 2013.
- 2012 was also a year of significant class size increases

## MMS Growth Index NWEA

Middle School Average Growth Index

- 0 equals the expected growth

*This data reflects the average growth of all students in 6-8 grades. between the fall and spring on NWEA. Any positive number means that there was greater than expected growth on this - reading indicator
- NWEA changed the test to greater reflect Common Core Standards in 2012 and again in 2013. This may be an indication of the smaller growth in 2012 and negative growth in 2013.
- 2012 was also a year of significant class size increases

|  | 230 | $61 \%$ | 244 | $52 \%$ |

- This chart represents the number of students achieving at the $70^{\text {th }}$ percentile or above on NWEA. This score represents a high probability of meeting college readiness requirements.

## Average RiT 8th NWEA

Mean RiT Score 8th Grade

- Mean RiT Math
- Mean RiT Reading
- This is the average of all scores on NWEA for all students in $8^{\text {th }}$
Grade.

## NWEA

NWEA Growth Indicator MES

*This data reflects the average growth of all students in 2-5 grades.

- 0 equals the expected growth between the fall and spring on NWEA. Any positive number means that there was greater than expected growth on this
-reading indicator
- MATH
- NWEA changed the test to greater reflect Common Core Standards in 2012, and again in 2013 This may be an indication of the smaller growth.
- 2012 was also a year of significant class size increases

## Average RiI 5th NWEA

## Mean RiT 5th Grade

- This is the average of all scores on NWEA for all students in $5^{\text {th }}$
Grade.
